Best Apps for Kids Resources:

American Association of School Librarians Best Apps for Teaching and Learning:

This is a fantastic annual list compiled and vetted by school librarians. It offers information about each app, recommended grade levels, platform, and cost.

Common Sense Media: Online library of age-based ratings and reviews of all kinds of media, including apps, movies, books, etc. This website isn't a "best" list, but is a good resource for getting comments and reviews for tons of different apps and other media. Offers ratings for parent-friendly categories like Violence & Scariness, Ease of Play, and Language.

School Library Journal: Either in their print publication or online. They often have app reviews and articles about great apps.

Best Apps for Kids website: Website dedicated to rating and reviewing tons of apps for kids. This website is especially helpful for finding out about a wide variety of apps that you can then read about on websites like Common Sense Media.
